I. Nature of Overseas Instruction

Using the tabulation below, please enter approximate percentages to indicate your answers to these questions on the kind of instruction you expect to be given overseas:

- What are the present proportions of varieties of subject matter ?
- What are the present proportions of various methods of instruction ?
- What do you think these proportions should be ?
- What do you think they are likely to be, say a year from now ?

Subject Matter	(Examples)	Proportions		
		Now	Prefer	Likely
Ideas (Communism vs. democracy)		_____	_____	_____
Techniques (establishing a safehouse, agent handling, organizing resistance)		_____	_____	_____
Skills (weapons, demolitions)		_____	_____	_____
Other(.....)		_____	_____	_____
Totals		100%	100%	100%

Instructional Methods

Lectures				
In native language				
Through interpreters				
Readings				
To convey essentials				
Supplementary only				
Demonstrations				
Discussions				
Practice				
Written work (e.g. reports)				
Live problems				
Action (e.g. weapons, demolitions)				
Field problems (1-10 days and nights)				
Other (.....)				
Totals		100%	100%	100%

II. Literacy of and Reading Matter for Overseas Students

- What proportion of the overseas students can read fairly well in their own language ? \_\_\_\_\_
- If your answer to A. is equivalent to "all" or "most":
  - Is this ability now being used ? \_\_\_\_\_
  - Do you think it should be used ? \_\_\_\_\_
  - Is adequate reading matter in the native language now available ? \_\_\_\_\_
  - If not, is it being prepared ? \_\_\_\_\_

III. Administrative Estimates on a Course for Instructors

- How long do you think it would take to do the sort of instructor training you want done, in addition to time now taken by regular courses ? \_\_\_\_\_
- Assuming a worthwhile course, how long would you expect to assign your personnel to TR(C) to get it ? \_\_\_\_\_
- About how many candidates for an instructors' course do you expect to have, per month, from January through June, 1952 ? \_\_\_\_\_
